

Cary Gastroenterology Associates is currently recruiting for a Gastroenterologist to join our practice. Our gastroenterology team features the expertise of 6 board-certified physicians with a passion for traditional and preventive medicine for adults. We are committed to excellence in our approach to general gastroenterology care in the outpatient and inpatient settings. We are looking for an experienced Gastroenterologist desiring to work in an uplifting environment who will contribute to the growth and expansion of our practice.

Cary Gastroenterology has several thriving service lines. Our private practice offers comprehensive outpatient services including our own pathology lab, capsule endoscopy, manometry, breath testing, hemorrhoid banding and infusion services. The Women's Center for GI Health offers exceptional care and service to women, by women, with all female physicians and staff. We have offices in Raleigh, Cary and Holly Springs and perform procedures at the Raleigh Endoscopy Center, as well as at WakeMed Cary Hospital.

Cary Gastroenterology is located in a thriving professional suburb within the Triangle area. The Triangle is home to Duke University, NC State University and the University of NC at Chapel Hill. It has much to offer and provides a family friendly environment with plentiful educational, sports, social, and cultural activities.
